

IBS 600

Location: Oak Ridge Tn.

Time: 10:20 am till 2:45 pm June 26 2010

shooters showed up around 8:00 am, but fog delayed the start of the match after all the chatting they started the match at around 10:20 am with clear sky.

Light gun :

was shot first with light switching wind and no high scores or small groups were shot William Gardner made the mistake by not moving to his (3th) third record target.

Heavy Gun :

switching wind conditions did not steady for the heavy gun relays with Greg Culpepper shooting off paper in the second relay

Scores and Groups suffered from these conditions but the marksman in relay 2 recovered on target #4.

Poseidon once again sent one of his sons to test our marksman in their wind reading skills.

See ya'll at the next test.

Thanks to : all competitors and especially Tom Colyer
